Chairman Sri Rakesh Gupta 'Sai' awarded for U.P. Ratna Award from Honb'le Nitin Gadkari Ji, Minister for Road Transport & Highways

The journey started in 2002 with my vision of "Quality and affordable professional education for all". The challenges were many. But with the help of my dedicated team and the grace of Sai Baba, I have never looked back and accepted every problem as a challenge. In the last 17 years, we have grown, expanded and reached new heights in the field of Medical education and Health Care Services. Now we have added new feathers of success to our cap and included, I.T.I. and D.El.Ed.to our group. Not only we have become synonymous with trust among students seeking professional education but have also earned a name for ourselves in this era of high end competition. We have still committed to quality which never compromises on any front. May it be infrastructure or faculty. We always ensure the highest standard. Our institutions have more than 200 faculties of national and international repute. We have an Alumni of more than 3000 students. It is also quite encouraging that our students have been placed in various health care services provided by both Govt. and private sector. We promise to lead the legacy of success in the times to come. I welcome all the students and their parents, who are interested in professional courses to pay a visit to our institution for any kind of guidance and counselling.

We heartily welcome you to be a part of our ever growing family and make the best of a professional career to serve the nation.

Rakesh Gupta

Introduction

Sri Sai Ayurvedic Medical College & Hospital is a dream gradually taking concrete shape of reality. It is but a tribute to Sri Sai Baba of Shirdi who inspired the founder to dedicate an institution to the India's Pride Oldest science in medicine, Ayurveda. Om Sri Sai Shiksha Samiti was then formed and registered under Societies Registration Act 1860 in April 2002 and the Chairman transferred their rich herbal estate and grove spread over a large area of more than Ten acres on the outskirts of Aligarh on the main G.T.Road to the Society for running the Ayurvedic College. S.A.M.C. was first to obtain permanent affiliation by CSJM University, Kanpur and it holds N.O.C. and Essentiality Certificate from the Government of U.P. thereby fulfilling primary conditions for the C.C.I.M, New Delhi to allocate adequate number of seats. The C.C.I.M granted first intake of 50 Seats in the first year 2002 for admission to the degree course of BAMS. Now 100 seats have taken. SAMC has to go a long way from this point onward. Accreditation of CCIM has already been obtained. Ayush under Ministry of Health, Govt. of India have also approved accreditation after their panel inspection.

The college has already started P.G. Courses in respective disciplines: Shalya Tantra, Prasuti evam Stri rog, Shalakyia Tantra, Ras Shashtra, Agad Tantra, Rachna Sharir & Maulik Siddhant leading to the awarded of MD/MS (Ayu) degree.

Team SAMC

SAMC is Aligarh's Premier Center for Ayurvedic (Graduation and Post- Graduation) education with an established track record over last Seventeen years which achieved many awards in educational arias. We are constantly changing to adapt the needs of students through accepting innovations and embracing modern technology and techniques.

Library SAMC library is housed in a large hall of approx 3000 sqft with separate seating arrangement of U.G. / P.G. Students & teaching Faculty . It receives special attention and importance in the scheme of development of the institute. It has over 11,000 books and subscribe to many important journals. There is a reference section for faculties and students for internal reading only. The library provides non book materials like CDs, DVDs, e-Journals, computers and Wi-Fi facility.

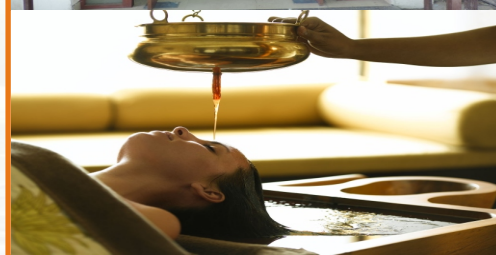

Panchakarma

Panchakarma is an inevitable part of Ayurveda treatment. Our institute is having a state of the art of Panchakarma theatre & qualified Panchakarma experts and fully trained therapists delicately working together to provide world class Panchakarma therapies at an affordable price. Not only to the general public but also we have provided Panchakarma services to may helpless people.

Hospital

Our institute has a 184 beded NABH accredited hospital engage in medical teaching, training and patient care services. It is fully equipped with computerized Patho-lab, X-Ray, Physiotherapy

SRI SAI AYURVEDIC PG MEDICAL COLLEGE AND HOSPITAL

centre, Yoga therapy room, air conditioned operation theatres and labour room. We have doctors of different disease specialization of Ayurveda as well as modern medical science. We impart quality and affordable integrated health care services at a very nominal price. We have full time doctors from modern science to handle emergency 24x7. We have a dedicated Eye unit with all modern machines and OT for different Eye surgeries. Our hospital has its own name in Aligarh for Ayurveda, Panchakarma and Ksharasutra treatment.

College Pharmacy

A GMP certified Ayurvedic Medicine manufacturing unit is attached to the college. Classical and some patient quality medicine for outdoor and indoor patients are prepared. This Pharmacy also provides practical exposure to UG and PG scholars in preparing Ayurvedic Medicines. The required research medicines for PG scholars are also prepared by college pharmacy.

Departmental Laboratory

All the laboratories related to the subjects like Anatomy, Pathology, Toxicology, Dravyaguna, Rasashashtra etc, are well equipped for imparting Practical training to students. Such activity include: Dead body dissection, Routine blood and urine test, Routine hematological, serological, biochemistry, urine and stool examination, Animal and plant origin poisonous drugs demonstration, Fresh and dry medicinal plant drug identification, Preparation of Ayurvedic medicine with the help of modern machineries. Ayurveda means "the science of life" (ayur means "life" and veda means "science" in Sanskrit). Ayurveda is a discipline of the upaveda or "auxiliary knowledge" in Vedic tradition. Ayurveda has its prime origin from Atharva-Veda and apart as a supplement of the Rig-Veda. Dhanvantari is worshipped as the God of Ayurveda. The aim of this system is to prevent illness, heal the sick and preserve life. The Ayurveda has its origins from the India and extended its wings in various parts of the world. Ayurveda was taught in Gurukula system in ancient days, which is now been evolved in to under graduate & post graduate courses from Institutions.

Herbal Garden

A part of the herbal garden has been earmarked exclusively for growing herbs required for the research division of the hospital. The hospital has an organized pharmacy department where the medicines from the drug manufacturing unit as well as formulations of other companies are dispensed. Planting an herb garden is a wonderful way to enjoy the sights, smells and tastes of a wide variety of plants. Fresh herbs are often easy to cultivate and can grow in a small garden in the back yard, in pots on an outdoor patio or sunroom, or even in a window box inside a kitchen. Gardening is a terrific hobby and allows your senior loved one an opportunity to show his or her creativity. It is a great activity that can be shared with others like grandchildren, with friends in a club as a social activity, or even alone. Not only is gardening relaxing but it also improves hand-eye coordination, motor skills and self-esteem.

The herbal garden is very well useful for the students of all professions especially for the 2nd BAMS students who have Dravyaguna Vijnayana as a prime subject. The Dept. of Dravyaguna Vijnayana has a prime role in conception and maintenance of the garden.

SRI SAI AYURVEDIC PG MEDICAL COLLEGE AND HOSPITAL

Hostel

Hostel provides feeling of Home-Away-From-Home to the students. Keeping in view the same philosophy we provide a secure, comfortable and healthy environment for all the residents of the SAMC hostel. The hostel is well furnished, hygienic and have ultramodern amenities. The hostel premises has common TV room, tuck-shops (having stationary, barber, bakery, juice etc. shops) and state of the art indoor and outdoor sports facilities. The entire hostel premises are Wi-Fi enabled and has a separate computer centre with 24X7 internet facility.

Extra Curricular Activities

This is a significant regular of the college. Students are actively encouraged to take part in various sports and indoor games in the campus and further encouraged to take in the internal tournaments. The efforts are suitably. Such activities includes:

- Debate and Quiz Activities
- Convocation Ceremony
- Various Types of sports activities
- Educational Tour
- Cultural Activities
- Health related social Activities
- Fresher's Party
- Annual day Celebration
- Workshops
- Seminar/CME

Play Ground

The College provides all kinds of sports activities and encourages students to take part in games and to ensure their all round development. All facilities and play grounds are available for:- Basket Ball Volley Ball, Foot Ball, Table Tennis, Cricket, Badminton etc. There are multiple sport facilities to keep our students engaged and physically fit. In view of an all round development of the students, liberal arrangements have been made in the way of indoor, outdoor games and sports facilities for boys and girls so as to provide them with ample competitive and recreational opportunities.

Teaching Staff & their Quarters

This college has an excellent teaching faculty with highly qualified and well experienced staff. All teachers are full time and the students are given special attention in their studies. The excellent results in the university examination is due to dedicated, constant effort by staff. The teaching aids used by the staff are modern and helps the students to learn the subject thoroughly. Parents teachers meeting is held periodically after each internal test and students performance is furnished to the parents directly. All teaching faculty residence in college campus. So, Students can discuss and solve their any types of educational difficulties.

Security and Safety

SAMC has a large team of professionally-trained security personnel patrolling and guarding the campus 24X7 to ensure safety of students, staff and infrastructure. The complete campus is under CCTV surveillance.

Wi-Fi- Campus

It is impossible for today's students to do anything without Wi-Fi. From project research to applying for internships, everything in a student's life is done online. Proper Wi-Fi connectivity is essential. Colleges might have to invest a significant amount of money in order to set up a network that works on the campus, but it will pay off in the long run.

Transportation

SAMC provides faculty and students with bus services from all parts of the city to the Institute. The buses are comfortable, safe and economical, being subsidised by the Institute.

SRI SAI INSTITUTE OF PHARMACY

PRINCIPAL DESK

Dear Friends,

Welcome to the profession of Pharmacy at SRI SAI INSTITUTE OF PHARMACY

The health care sector is one of the most challenging professions in India. India has a rich base of pharmaceutical industries, as it is the world's third largest industry in terms of volume.

Some of the major pharmaceutical firms include Sun Pharma, Novartis, and GlaxoSmithKline etc. The market is highly competitive and in such conditions, the pharma industry requires well trained professionals who are ready to face challenges. Since 2008, Sri Sai Institute of pharmacy is contributing in the development of well trained pharmacy professionals who have spread their knowledge throughout the country. At S.S.I.P., we believe in righteousness, integrity and truth. Assignments, group discussions and individual presentations help the students in not just enhancing the knowledge, but also ensuring that they excel in their professional career.

I am very much confident that our students as always will be the key in redressing current health issues in the country and will serve the society at large.

Extracurricular activities

The institute successfully organized several extracurricular activities viz. fresher party, farewell party, alumni meet and annual day party, convocation ceremony etc. . Organization of Different types of games also done in regular intervals.

SRI SAI RR INSTITUTE OF PHARMACY

PRINCIPAL DESK

You are standing at the turning point of your career by successfully passing 12th standard examination in science faculty. Making choice to join Medical profession is a courageous as well as challenging decision. Pharmacy is a Noble profession. A pharmacist will give life to a chemical entity. Pharma industry is highly demanding industry in India as well as overseas.

The pharmaceutical sector was valued at US\$ 33 billion in 2017. The country's pharmaceutical industry is expected to expand at a CAGR of 22.4 per cent over 201520 to reach US\$ 55 billion. India's pharmaceutical exports stood at US\$ 17.27 billion in 2017-18 and are expected to reach US\$ 20 billion by 2020. By 2020, India is likely to be among the top three pharmaceutical markets by incremental growth and 6th largest market globally in absolute size. Increase in the size of middle class households coupled with the improvement in medical infrastructure and increase in the penetration of health insurance in the country will also influence in the growth of pharmaceuticals sector. Therefore pharmaceutical companies require more and more trained pharmacy professionals. Sri Sai RR institute of Pharmacy, ensuring you to give world class education as well as practical training to all aspirants.

I am very much confident that our students will give an important role in health care system of India as well as foreign countries.

Laboratory

Practical knowledge is much better than theoretical knowledge. Due to this reason institute provide world class practical knowledge to growing pharmacists. We have five laboratories viz. Pharmaceutics, Pharmaceutical Chemistry, Pharmacognosy, pharmacy Practice and Physiology and Pharmacology Laboratory. All labs are fully equipped and have all chemicals, instruments and models as per need of pharmaceutical industries. Beside these labs institute also have a machine room and a computer lab.

Introduction

Considering the increasing lack of pharmacists, our committee opened a new pharmacy institute in 2018 under the leadership of chairman Sri Rakesh Gupta Sai at Sarsol, G.T. Road, Aligarh.

Institute is approved by Pharmacy council of India (PCI) New Delhi, All India Council For Technical Education (AICTE), New Delhi & Affiliated to Board Of technical education Uttar Pradesh (BTEUP) Lucknow.

DIPLOMA IN OPTOMETRY

Optometry is an independent discipline accepted academically as such by the pattern of education it follows in most contries of the world. World council of optometry defines an optometrist as a primary eye care professional, institutionally educated and clinically trained to examine, diagnose and correct the refractive optical errors of the visual system by prescribing Spectacle, contact Lenses, Low vision Aids and vision therapy eye exercise to patients complaining of visual symptoms.

The present scope of optometric practice is far more than the historic determination of the refractive state of the eyes, prescribing and dispensing of glasses. Today the practice of Optometry also includes the detection of ocular and related systemic disease, the fitting of contact lens and low vision aids. It extends to public health-vision screening in school and industry vision problems associated with driving and flying. It involves optometric counselling of patients with partial sight and hereditary vision defects. Optometrist is concerned with vision care. Like physician and dentists. Optometrist are primary eye care and health professional. Similar to the professional education in pharmacy, which is required to run a chemist shop, a professional education in Optometry is necessary to efficiently manage any optical trade including primary dispensing of spectacles. Like physiotherapy and Orthopedics, Optometry works hand in hand with ophthalmology in treatment of visual disorders. An optometrist has the following career opportunities: -

1. Can start own hospital, eye clinic, optical shop, lens manufacturing unit etc.
2. Can work for eye testing, contact lenses, squint exercise, etc. with Opticians shops, contact lens and ophthalmic lens industry, hospital eye departments etc.
3. Can get job on optical shops and hospitals overseas.
4. Can do post graduation and Research in optometry and other related subjects.
5. Can take up teaching optometry as a career with schools of Optometry.

SRI SAI INSTITUTE OF PRIVATE I.T.I.

Hi,

ITI (Industrial training institute) are those colleges in which students are trained that how to work in industries. course of ITI is two year course. ITI courses are the best way to learn any vocational skills. It is not necessary that everyone has to be a doctor or an IIT engineer. You can also be a technician or a mechanic. If you don't have to pursue higher education then you go for a diploma in various ITI courses. ITI course means Industrial training institute. It duration is of 2 years. It basically trains the students how to work in industrial areas. The course is a lower version of diploma. So after you complete ITI you can get direct 2nd year entry in Diploma courses.
